

Board of Commissioner's Meeting

December 16, 2020

Superintendent's Report

Committee Structure

Eric Pryne and I met to discuss our ideas on the committee structure going forward. The District bylaws don't specify specific committees. Committees may be established by the Board with the caveats that they are: advisory only; may have community participants; and membership is limited to two commissioners. We can discuss where commissioners have an interest in serving.

- Administration and Finance This committee would be focused on internal District business including financial management, budget, contract services, facilities and equipment. Jojo and I would attend these committee meetings along with Don and/or another commissioner. Ideally quarterly financial reports would be reviewed here prior to going to the Board, so I would propose this committee meet quarterly.
- Clinic Relations This is where we would receive input and feedback on clinic services and share this with clinic management. Community representation would be essential here. Initially, we may want this committee to meet monthly. I would attend this meeting along with two commissioners.
- 3. Communications, Planning and External Relations This committee would develop a communication strategy to propose to the Board, and advise the District on specific communications. It may use a survey or poll of the community to inform its work. New service initiatives would be vetted through this group based on identified needs. The committee members would also maintain relations with appointed and elected governmental officials. We need to discuss know how often this committee would meet. I would attend along with two commissioners. The commissioners would need to appoint community members to serve on this committee.

3rd Quarter Financial Statement

This is being prepared by Beth Huff at Lake Kennedy McCulloch at my request. Our plan is to prepare these quarterly going forward. This will also go with our loan application to King County EFC tomorrow.

New Business

Resolution 2020-11

Included in your materials is Resolution 2020-11, which approves issuance by the District of an interest-bearing tax warrant to King County in an aggregate principal amount not to exceed \$1.5 million. Repayment terms will be 7 years beginning on the date of the original King County loan and with a maturity date of January 31, 2027.

The District has the right and option to prepay and redeem the tax warrant at any time prior to its stated maturity date. As part of this resolution the District pledges to include in its budget, and levy taxes annually, in an amount sufficient to pay all amounts due under the Tax Warrant including principal and interest.

This resolution has been provided as part of the King County loan application.

King County Interfund Loan Application

Included in your packet is our application for the Interfund Loan and a memorandum to King County's EFC. The loan application requests a maximum of \$1.5 million, although the cash flow projects a maximum negative cash balance of \$1,071,000.

Financial and Cash Flow Projection 2021-2027

As part of the loan application, I prepared a cash projection through 2027 demonstrating the District's ability to repay the loan. Assumptions were made as follows for purposes of this financial projection that may change based on actual circumstances in the future:

- An increase in the assessed value of 2% per year
- A reduction in the tax levy rate to \$.50 per thousand over time due to possible prorationing

- A decline in the monthly subsidy required from \$125,000 to \$90,000 over time as the pandemic resolves and clinic volumes increase
- Debt service beginning in 2021 and ending in 2026
- An interest rate of 2% on borrowed funds

The amount of borrowing required from King County fluctuates from month to month and is represented by the negative cash balance each month in the early years of this projections. The last year in which the District shows a negative monthly cash balance is 2025. The projection shows that by the end of 2027, the District will have a cash balance of \$1,546,323. The projection does not assume any capital expenditures or borrowing to support a new clinic building. Should the District issue a limited tax general obligation (LTGO) to support building of a new clinic, then debt service on that LTGO would need to be added.

The Tax Warrant also may be signed on behalf of the District by any person who, on the actual date of signing of the Tax Warrant, is an officer of the District authorized to sign warrants, although he or she did not hold the required office on the date of issuance of the Tax Warrant.

December 15, 2020

To: King County Executive Finance Committee From: Eric Jensen, Superintendent, PHD #5, King County RE: Loan Modification

King County Public Hospital District No. 5, dba Vashon Health Care District, sought and received approval for an interfund loan from King County up to a maximum of \$1 million in January, 2020. The purpose was to enable the District to begin providing financial support for primary care delivery on Vashon Island, and to fund District operations in 2020 and early 2021 prior to receipt of 2021 tax revenue.

Recognizing that primary care was not sustainable without financial support, the residents of Vashon and Maury Islands approved the formation of a public hospital district in November 2019. The mandate was to use the District's taxing authority to provide needed financial support to a primary care provider, as needed, to sustain its clinic operations on Vashon.

The current interfund loan, which has a 5-year payback period, was instrumental in allowing the District to begin supporting primary care in July 2020. This began first with Neighborcare Health and subsequently with Sea Mar Community Health Centers, which took over operations in November 2020. Unfortunately, the level of financial support originally anticipated changed dramatically due to the impact of the coronavirus pandemic on the island's clinic operations. Based on actual 2020 operating results, the projected tax support required increased to \$1.5 million annually beginning in November 2020. As a result, the District projects that it will exceed the \$1 million interfund loan limit by the end of January 2021.

Based on the increased financial need, the Vashon Health Care District is requesting an increase in its borrowing limit to \$1.5 million, and an increase in the repayment term to 7 years. In discussion with legal counsel for both King County and the District it has been determined that the modified loan should be structured as a Warrant that fits within King County's Interfund Loan Policy. A resolution approving issuance of this warrant will be considered by the District's Board of Commissioners at its regular Board meeting on December 16, 2020.

At an open public meeting on November 18, 2020, the District's Board of Commissioners adopted a budget for 2021 and a levy of \$1,945,170 with Resolution 2020-09 (attached). The 2021 budget assumes that additional borrowing from King County will result in a negative cash balance of about \$1,071,000, which exceeds the current loan limit of \$1 million. It also assumes that debt repayment will begin at the end of the 2021 and that the loan will be paid off by 2027.

Thank you for your consideration.

Sea Mar – Community Health Centers Opens New Clinic on Vashon

The Vashon Health Care District is pleased and proud to announce the opening of Sea Mar Vashon Medical Clinic.

The Sea Mar organization provides primary care, preventive medicine, behavioral medicine and a host of other types of health services to many communities within our state. They have a history of innovation and a tradition of working in collaboration with the communities they serve to provide care that fits the needs of the community.

Our new Sea Mar Vashon clinic will operate for the time being in the Sunrise Ridge clinic building that has housed an island clinic for a number of years. Sea Mar wasted no time in opening; seeing patients via telemedicine the very next working day after the former provider left. Beginning November 9th, the following week, they began seeing patients in person at the clinic.

The current hours of operation are M-F, 8am to 5pm.

For information regarding medical records transfer to Sea Mar Vashon Clinic, please call (206) 463-3671.

If you were a former patient of Vashon NeighborCare, this simple records transfer process will still be required.

10030 SW 210th St. • Vashon, WA 98070

We are also pleased to introduce and re-introduce some new and some very familiar practitioners who will continue to serve our community at our local clinic:

Thomas Erdmann, MD

Dr. Erdmann grew up in Seattle and graduated from the University of Washington School of Medicine. He joined Swedish Medical Center in West Seattle in 2008, and after moving to Vashon he continued to commute via motorcycle for 9 years. Being able to live and work in the same community, especially a rural community, has been a goal for some years.

"I've really enjoyed getting to know my neighbors on the island. As a family medicine physician my mission is to meet people where they are and work together to improve their health and well-being. I believe Sea Mar's mission is ideally suited to the island." Tom enjoys gardening and motorcycling. He and his partner live on Vashon with their dog and cat.

Jeffrey T. HansPetersen MD

Dr. Hans Petersen joined the clinic on Sunrise Ridge in 2010. It had been a long-time dream to somehow live on Vashon. Now he lives on Maury Island with his family, although Vashon still holds a special place in his heart. He believes it is a privilege to serve and live among the people who make these islands our home. "I have never lived in a place where I could see and feel how much we all depend on one another as we do in this community. Every day, my patients teach me how to be a better doctor. I consider my first responsibility with each patient is to listen carefully. My goal at each visit is that my patients feel heard and respected.

Thank you for this opportunity to serve you and your community at our medical clinic.

Burdett Rooney ARNP

Burdett grew up in the New England area and went to college and graduate school in Washington D.C.

Two children later she worked as a nurse and then a nurse practitioner in DC. Other jobs have taken her to work and live in about 10 countries worldwide. She has been fortunate to settle, near grandchildren, on Vashon.

In addition to being able to be part of the healthcare community on Vashon she enjoys reading, gardening, and the many beautiful walks available here.

Jessica Wesch MD

Dr. Wesch is a graduate of the University of Washington Medical School and Swedish Family Medicine Residency with dual training in Obstetrics.

She is a 20 year physician in the Seattle area and lives on Vashon Island. She trained originally as an herbalist and has an integrated and holistic approach to care. "My goal is help patients gain a deeper understanding of their health to inform good decisions about their health and care plan options. I believe in preventative care and I hope to help my patients lead long, healthy lives. I enjoy medical leadership, clinician and program development and look forward to bringing these skills and experiences to improve the health of our community."

The Vashon Health Care District deeply thanks our community for supporting locally-based primary care. The Commissioners also remind our neighbors that the most effective way to ensure the ongoing presence of a robust local health clinic is by regularly utilizing our Sea Mar clinic providers and services.
